

## **Covid Policy to attend trips and events organised by the International Society.**

As the last remaining Covid restrictions have ended or are coming to an end, we are reviewing our policy in light of new government guidelines and plan. As part of the government's Living with Covid plan, from the 1<sup>st</sup> of April lateral flow tests will no longer be provided for free. As such, we will also no longer be asking our members to take a lateral flow test prior to attending our activities. However, we do ask our members to continue watching out for each other's health and welfare by not attending our activities if you are feeling unwell or have covid like symptoms such as a temperature, runny nose or a headache.

You are welcome to wear a face mask when attending our activities and we will continue to maintain a high cleaning standard to ensure your safety at all times.

Best wishes,

Staff of the International Society.
